You can "See" CO₂ Concentration

Monitoring CO₂ to ensure Indoor Air Quality
(Built-in Data Logger model available)

Marvel 001 Home / Office / Greenhouse

Suggested retail price
\$ 200 (excl.tax)

Display Output	CO ₂ ppm , Temperature % , Relative Humidity %
Installation Method	On the table (back stand) or On the wall
Display Panel	3.9 inch semi-wide (85 mm x 50 mm)·backlight incl.
Power Supply	DC 5V USB type (mini USB side connect) AC adapter incl.
Term of use	Temperature:0~50 °C Relative Humidity:less than 95 %RH
Measurement Range	0 ~ 3,000 ppm
Alarm	Alert when more than AL2, Silent less than AL2, Silent mode available
Dimensions	W 137 mm x H 99 mm x D 28 mm 195 g

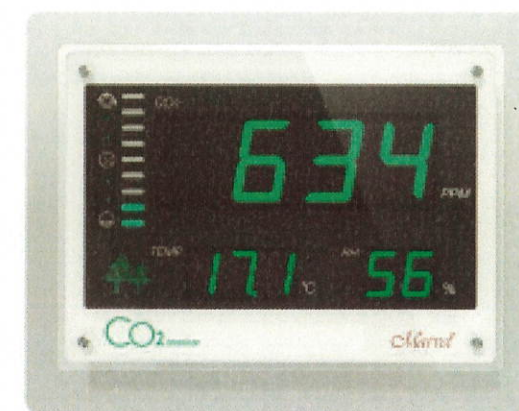

Marvel 003 (Built-in Data Logger)

Suggested retail price
\$ 300 (excl.tax)

In addition to the above standard specification, this Marvel 003 is a built-in data logger model which can record CO₂ concentration, Temperature and Humidity data, and analyze them. You can set the measurement interval 1 ~ 60 mins. (special software included)

Marvel 301 Public space / Outdoor

Suggested retail price
\$ 1,700 (excl.tax)

Display Output	CO ₂ ppm , Temperature % , Relative Humidity %
Installation Method	On the wall (Hanging hook on the side)
Display Panel	High Brightness LED Display · Power saving mode available
Power Supply	DC 16V convertor → adaptor plug side connect·AC adapter incl.
Measurement Range	0 ~ 3,000 ppm
Dimensions	W 560 mm x H 410 mm x D 50 mm 5 kg Unable to Relay · Non PC connect
